

# NANI PISINI

DevOps Developer | CI/CD Management | Incident Management |  
Server Optimization

📞 8317616248    @ pisininani340@gmail.com    📍 Hyderabad, Telangana

## SUMMARY

I am a dedicated IT professional with 3 years of experience specializing in DevOps practices. My expertise includes Jenkins CI/CD management, incident management using JIRA, and physical server management. I excel in optimizing deployment pipelines, ensuring system reliability, and enhancing overall performance through effective troubleshooting and collaboration with cross-functional teams.

## EXPERIENCE

### Developer

#### Tata Consultancy Services

📅 02/2022 - 01/1970    📍 Hyderabad, Telangana

A multinational information technology service and consulting company.

- Administered and maintained Jenkins pipelines, troubleshooting and resolving build failures.
- Used JIRA to track, prioritize, and resolve incidents related to server performance and application issues.
- Monitored and resolved issues with physical servers including hardware failures and network failures.
- Performed root cause analysis on recurring issues with physical servers and Jenkins jobs.
- Collaborated with development and infrastructure teams to address technical issues and optimize performance.
- Created and maintained detailed technical documentation for server configurations and troubleshooting guides.

## EDUCATION

### B.Tech in Computer Science Engineering

#### Vizag Institute of Technology

📅 08/2017 - 05/2021    📍 Visakhapatnam, Andhra Pradesh

### XII

#### Sujatha Jr College

📅 05/2016 - 04/2017    📍 Vizianagaram, Andhra Pradesh

### X

#### Gnyana Jyothi Vidyalayam

📅 05/2014 - 04/2015    📍 Vizianagaram, Andhra Pradesh

## KEY ACHIEVEMENTS

### Deployment Optimization

Increased deployment speed by 25% through optimized Jenkins pipelines.

### Incident Management

Reduced incident resolution time by 40% with effective JIRA management.

### Server Reliability

Improved server uptime by 15% through efficient troubleshooting techniques.

### Documentation Excellence

Authored over 50 technical documents to aid troubleshooting and server configuration.

## SKILLS

### CI/CD

### Configuration

### Continuous Integration

### html5

### Java

### Jenkins

### JIRA

### Linux

### Python

### shell scripting

### SQL

### Windows

### Windows Server

## PROJECTS

### Ericsson R&D Development applications

📅 02/2022 - 01/1970    📍 Hyderabad, Telangana

Ericsson R&D Development applications.

- Managed Jenkins pipelines to automate CI/CD processes.
- Troubleshot Jenkins build failures, optimizing deployment workflows.
- Collaborated with development teams to implement new Jenkins pipeline features.
